

TEMPORARY ARCHAEOLOGICAL FIELD TECHNICIANS

Logan Simpson is seeking temporary **Archaeological Field Technicians** for both current and upcoming pedestrian surveys as well as archaeological testing, data recovery, and monitoring projects throughout Arizona. Field projects will be managed out of Logan Simpson's office locations in Tempe, Tucson, and Flagstaff, Arizona.

The ideal candidate will have a B.A. or M.A. in Anthropology, completed archaeological field school, and possess experience conducting fieldwork in a cultural resource management setting.

Individuals must be able to survey in remote locations and walk up to 10 miles per day over steep terrain, while carrying a pack weighing up to 45 pounds. Individuals must also be capable of conducting a cultural resources pedestrian survey, which includes: operating a handheld GPS unit; identifying archaeological artifacts and features; documenting archaeological artifacts and features in written notes and on tablet computers. Ability to work cooperatively with crew members and supervisors a must!

If interested, please apply online at <http://logansimpson.com/about/careers/> and attach a resume and a cover letter.
